

GENESIS CREATIONS

A new generation of the ever popular Genesis Dragons are here to charm you with their mischievous antics.

Who was it who spilt the paint? Who tangled your best tape?
Where did you put that key? Did I really eat all of those sweets?
Why are my pencils always broken? Who was it that squeezed
the toothpaste out of the tube?
No one ever admits to being the culprit.

The answer however is quite simple. These charming characters try their utmost to create as much havoc around the home as possible and then allow someone else to take the blame.

We know better!

There are six of these mischievous dragons to collect available in rich purple or a very fetching dragon green.
